Our designer jewelry, from mine to artisan, to your hands, is an essential expression of our love of beauty and our concern for community and the environment. We work only with 100% recycled gold and silver because the precious metal in one ring can cause up to twenty tons of toxic sludge. In the entire jewelry sector, we are recognized as pioneers in ethically sourced jewelry.

Carousel™

A cottonwood stump. Stamps from the Silk Road. An anvil forged from iron a hundred years old. Gold and silver formed by jewelers who have dedicated years to perfect their craft. In an era when many jewelers design on computers, emailing renderings to a casting company, we remain traditionalists, forging these rings with hands and a hammer from sheets of silver and gold right on Baca St.
